

My name is Joshua Whateley

And I want to become a
pre-eminent programmer

[Why me?](#)

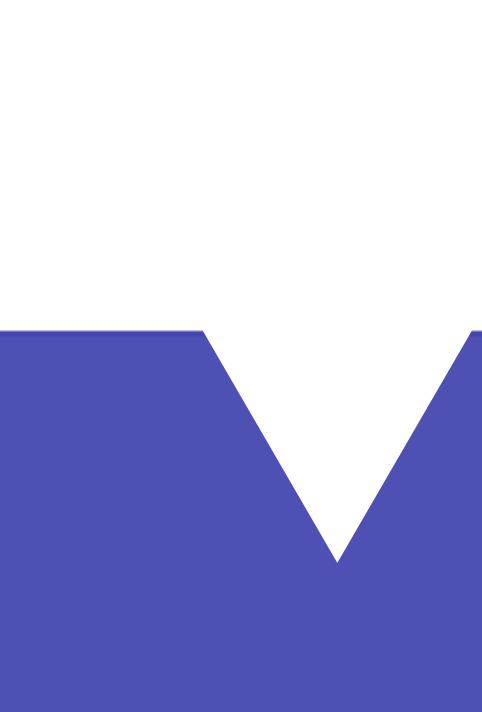

Skills

Communication

I have developed the ability to communicate to people across all age groups through tutoring and coaching

Learning

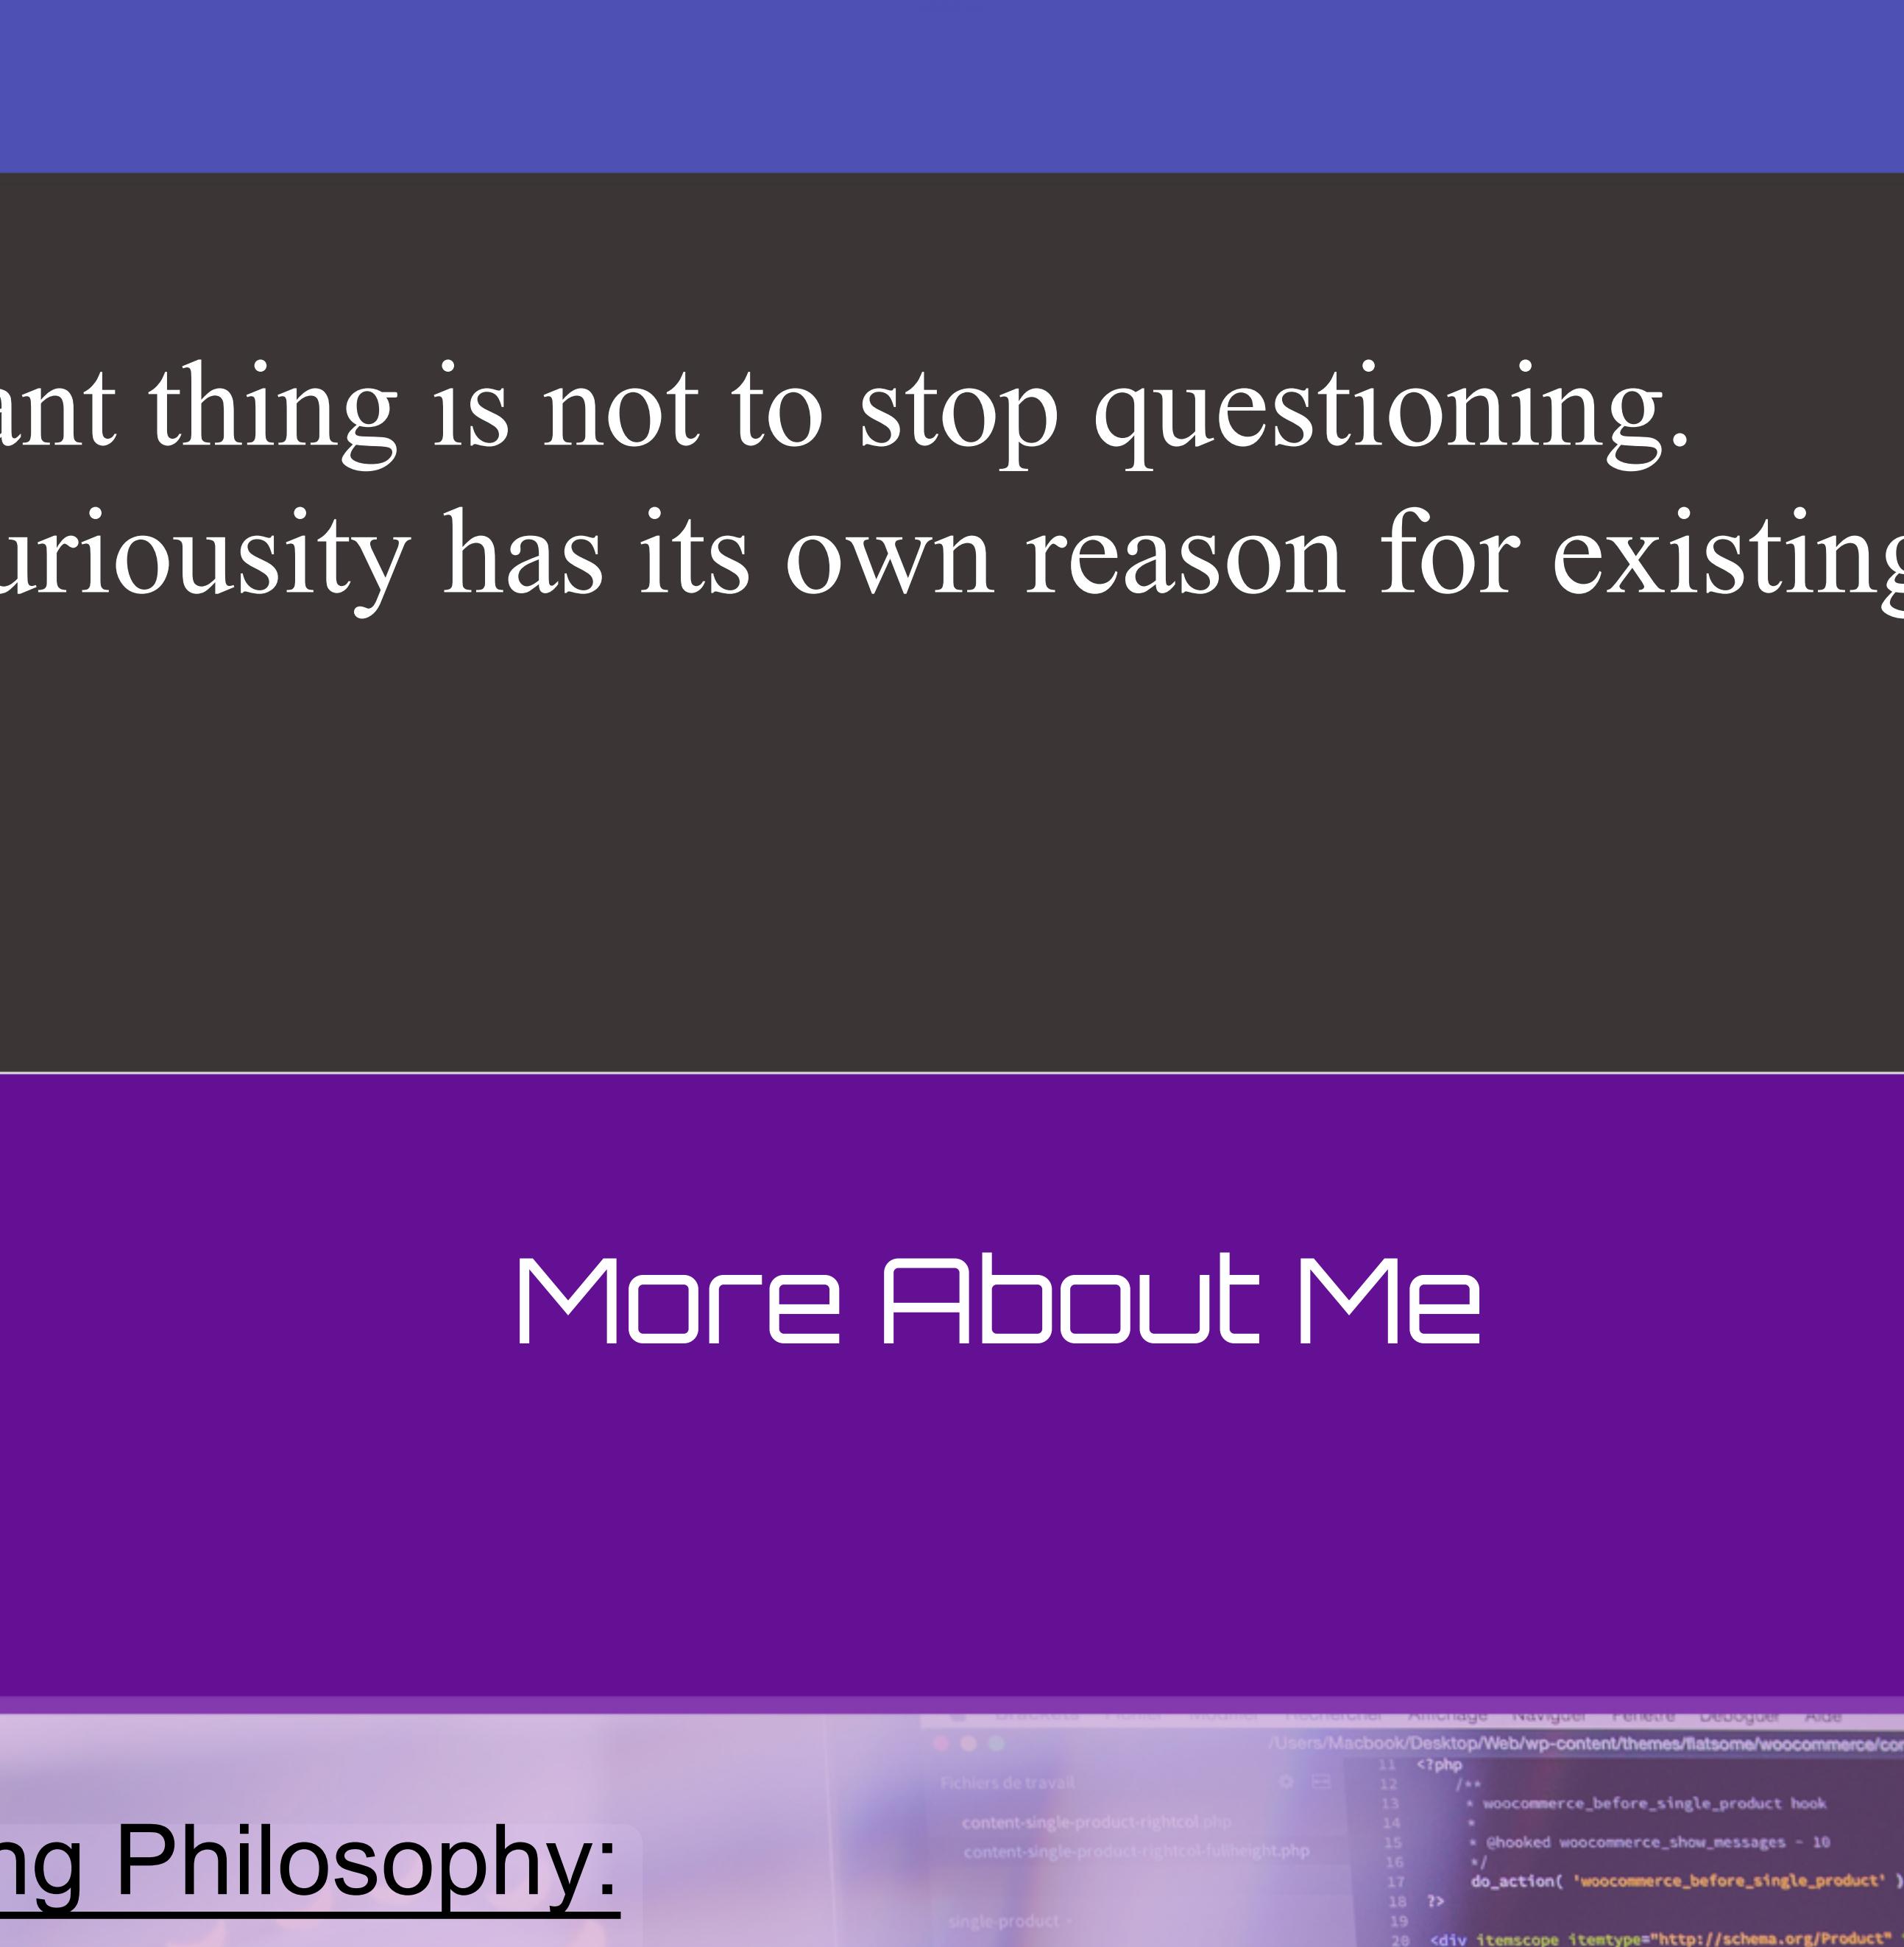

My curiosity has driven me to constantly learn new skills and create new things. I am able to quickly grasp new concepts and apply them regularly.

Problem Solving

I enjoy solving complex problems. Be it a design or functionality problem, I enjoy finding an efficient solution.

Languages

“The important thing is not to stop questioning.
Curiosity has its own reason for existing.”

- Albert Einstein

More About Me

Programming Philosophy:

I enjoy watching my code come to life. I really get a kick out of being able to create well designed projects or creating complex and efficient queries to a database.

I want to constantly learn new languages and practices and create awesome projects with a team of like-minded people.
